

DAILY LINE

DAILY LINE

The DAILY line is most suited to use in various shoe types with low space requirements. DAILY, DAILY HIGH HEEL and DAILY RIGIDUS are your ideal everyday companions. Designed as an extremely thin and light-weight orthotic blank, the DAILY line gives you the opportunity to offer your customers and patients foot orthotics which are high quality and even fit in business shoes. There are two shell widths available, narrow and medium. The DAILY line's centrepiece is the orthotic shell made from glass fiber and carbon fiber composite materials Perpedes developed and produces by itself. Due to their thermoplastic properties, the shells can be customized to adapt to the foot simply and quickly. High-quality materials which meet high demands and offer the opportunity to be quickly and easily processed.

DAILY

The DAILY orthotic blank forms the basis of the DAILY line. The self-supporting but thin Perpedes glass fiber composite shell with its long wing heel section optimally supports the foot's longitudinal arch, guides the heel and still maintains the natural feeling when walking. The Perpedes glass fiber composite shell, which is available in two widths, can be optionally shaped due to its thermo-

plastic properties and can, therefore, be uniquely adapted to the patient's foot and conditions. An additional reinforcing textile layer with forefoot stabilizing elements gives the orthotic blank further stability, while the thin grey soft zone padding provides additional comfort. Optionally, the DAILY can be supplemented by soft Carbosan foam met pads which support the transversal arch.

CHARACTERISTICS

Supportive foot orthotic blank
Long-sole soft cushion

Compatible with the
BALANCER - HEEL POST MODULE

PRODUCT FACTS

Size range: 35 - 48
 Width: Narrow (35 - 43)
 Medium (38 - 48)
 Foot orthotic shell: Acrylic composite material made of knitted glass fiber (G431)
 Outline: Business
 3D-Contour: DA = moderate longitudinal arch support with slightly guided heel
 Special feature: Long rear wings
 Soft zone padding

DELIVERY FORM

DAILY

ITEM NO.	BASE COVER	ADDITION	WIDTH	LENGTH	SIZE RANGE
DAE_	CarboTec black	COMFORT soft zone padding	Narrow	4/4	35 - 43
DAB_	CarboTec titanium	COMFORT soft zone padding	Medium	4/4	38 - 48

DAILY

BASE/BOTTOM COVER

CarboTec, titanium

MATERIAL COMPOSITION

50% PUR + 50% PA

CHARACTERISTICS

High abrasion resistance

Slightly slip-resistant

Colorfast and lightfast

Base cover for narrow version:

CarboTec, black

FOOT ORTHOTIC SHELL

Acrylic composite material made of knitted glass fiber (G431)

MATERIAL COMPOSITION

Knitted glass fiber with acrylic matrix

CHARACTERISTICS

Very good thermalplastic processing at 130° - 140° C

Optimal support of the foot's longitudinal arch

FEATURE

Shell recess under the tuberosity 5th metatarsal and central heel

LONG REAR WINGS

Stabilized heel by long rear wings.

To the product video

COMFORT SOFT ZONE PADDING

Soft pressure zone padding made of Carbo-san foam suitable for the limited volume of business footwear.

REINFORCING LAYER

Additional reinforcing layers with forefoot stabilizing elements provide smooth transitions and give the orthotic blank further stability.

DAILY HIGH HEEL

The DAILY HIGH HEEL orthotic blank is designed specially for use in high heeled shoes. The thin, self-supporting and highly flexible Perpedes carbon fiber composite shell with its short wing section adapts optimally to the shoe's heel spring. The thin carbon fiber shell can be optionally shaped due to its thermoplastic properties and can, therefore, be uniquely adapted to the patient's

foot and requirements. Additionally, soft Carbosan forefoot and heel pads are inserted in order to reduce the specific impact sensation when wearing higher heels. Optionally, the DAILY HIGH HEEL can be supplemented by soft Carbosan foam met pads which support the transversal arch.

CHARACTERISTICS

Supportive foot orthotic blank
Long-sole soft cushion (optional)

Compatible with the
BALANCER - HEEL POST MODULE

PRODUCT FACTS

Size range: 36 - 43
 Width: Narrow
 Foot orthotic shell: Acrylic composite material made of knitted carbon fiber (C601)
 Outline: Business
 3D-Contour: DH = moderate longitudinal arch support, flat heel
 Special feature: Forefoot and heel cushion pad made from Carbosan foam
 Flexible shell with short rear wings

DELIVERY FORM

DAILY HIGH HEEL

ITEM NO.	BASE COVER	ADDITION	WIDTH	LENGTH	SIZE RANGE
DHA_	CarboTec black	COMFORT soft forefoot padding	Narrow	4/4	36 - 43

DAILY HIGH HEEL

BASE/BOTTOM COVER

CarboTec, black

MATERIAL COMPOSITION

50% PUR + 50% PA

CHARACTERISTICS

High abrasion resistance

Slightly slip-resistant

Colorfast and lightfast

FOOT ORTHOTIC SHELL

Acrylic composite material made of knitted carbon fiber (C601)

MATERIAL COMPOSITION

Knitted carbon fiber with acrylic matrix

CHARACTERISTICS

Excellent thermalplastic processing at 130° - 140° C

Optimal support of the foot's longitudinal arch

SUPINATION WEDGE

By using an additional layer made from carbon fiber material (C901), the foot arch is supported and therefore counteracts problems due to overpronation.

SHORT REAR WINGS

Flexible heel by short rear wings, to optimally adapt to the shoe's heel height.

To the product video

FOREFOOT CUSHION PAD

Forefoot cushion pad made of Carbosan foam to relief from pressure.

REINFORCING LAYER

An additional reinforcing layer with forefoot stabilizing elements provide smooth transitions and give the orthotic blank further stability.

HEEL CUSHION PAD

Heel cushion pad made of Carbosan foam to soften impact forces.

DAILY RIGIDUS

The DAILY RIGIDUS orthotic blank is designed specially for complaints in the big toe joint area, e.g. Hallux limitus. The self-supporting but thin Perpedes glass fiber composite shell with its short wing section dynamically supports the foot's longitudinal arch and is extended under the MTP joint 1 in such a way, that the joint is spared from painful movement-related deflections whilst walking. The shell's short wing heel section ensures a feeling of natural

gait pattern, while the thin grey soft zone padding provides additional comfort. The glass fiber composite shell, which is available in two widths, can be optionally shaped due to its thermoplastic properties and can, therefore, be uniquely adapted to the user's foot and requirements. Additionally, the DAILY RIGIDUS can be supplemented by soft Carbosan foam met pads which support the transversal arch.

CHARACTERISTICS

Supportive foot orthotic blank
Rigidus splint
Long-sole soft cushion

Compatible with the
BALANCER - HEEL POST MODULE

PRODUCT FACTS

Size range: 35 - 48
 Width: Narrow (35 - 43) / Medium (38 - 48)
 Foot orthotic shell: Acrylic composite material made of woven glass fiber and knitted polyamide (GH702)
 Outline: Business, Square
 3D-Contour: DR = moderate longitudinal arch support with guided heel
 Special feature: Short rear wings
 Soft zone padding

DELIVERY FORM

DAILY RIGIDUS

ITEM NO.	BASE COVER	ADDITION	WIDTH	OUTLINE	LENGTH	SIZE RANGE
DRE_	CarboTec black	COMFORT soft zone padding	Narrow	Business	4/4	35 - 43
DRB_	CarboTec titanium	COMFORT soft zone padding	Medium	Business	4/4	38 - 48

DAILY RIGIDUS

BASE/BOTTOM COVER

CarboTec, titanium

MATERIAL COMPOSITION

50% PUR + 50% PA

CHARACTERISTICS

High abrasion resistance

Slightly slip-resistant

Colorfast and lightfast

Base cover for narrow version:

CarboTec, black

RIGIDUS SPLINT

Rigidus splint for motion-limiting reinforcement underneath the MTP-joint I

FOOT ORTHOTIC SHELL

Acrylic composite material made of woven glass fiber and knitted polyamide (GH702)

MATERIAL COMPOSITION

Woven glass fiber / knitted polyamide with acrylic matrix

CHARACTERISTICS

Good thermalplastic processing at 130° - 140° C

Optimal support of the foot's longitudinal arch

FEATURE

Shell recess under the tuberosity 5th metatarsal and central heel

SHORT REAR WINGS

Flexible heel by short rear wings, to sustain a natural feeling for ground contact.

To the product video

COMFORT SOFT ZONE PADDING

Soft pressure zone padding made of Carbo-san foam suitable for the limited volume of business footwear.

REINFORCING LAYER

Additional reinforcing layers with forefoot stabilizing elements provide smooth transitions and give the orthotic blank further stability.

DAILY COMFORT SOFT ZONE PADDING

DAILY COMFORT SOFT ZONE PADDING

Soft pressure zone padding made of Carbosan foam suitable for the limited volume of business footwear

"INVISIBLE" CUSHION

Thinning and therefore invisible at the sides

TOPOLOGY

Various thicknesses - more cushion thickness in the center according to the foot's needs
